

Congress want a windfall profits tax. That is what the oil companies understand. When we get that up to 100 co-sponsors, then the oil companies are going to start backing off, because right now, their foot is on the accelerator. They are looking at \$3 a gallon, \$4 a gallon, \$5 a gallon.

We have to stand up for the American people, and that is what we are here to do.

A NEW APPROACH TO ENERGY PROBLEMS

(Mr. JINDAL asked and was given permission to address the House for 1 minute.)

Mr. JINDAL. Mr. Speaker, the Nation's energy prices continue to rise. Families and businesses are feeling the pinch. We are paying the price for decades of extra taxes, poor energy policy, curtailed exploration and a lack of new refineries.

The Nation needs to take a new approach to our energy problems. We need to break our dependency on foreign sources of oil, which leaves us at the mercy of foreign powers. To do that, we should increase domestic energy production.

My bill, H.R. 4761, gives States control over the waters off their shores and encourages them to increase energy exploration by giving them a share of the revenues generated.

We should increase our development of alternative fuels, taking advantage of renewable resources, like using corn and sugar to produce ethanol or soybeans to produce biodiesel.

Finally, we should help developing nations like China and India curb their exponentially increasing consumption of oil and natural gas, which is driving world prices higher.

India, in particular, is looking to develop nuclear power for domestic, commercial use, and we should work with them. This is a good deal for both countries. India develops its own self-sustaining nuclear power sources, which will limit their need for oil and natural gas. We get a reduction in the demand for world energy, lowering prices in the process.

Clearly, the energy problems facing us are too big to use yesterday's thinking.

THE "DO LESS THAN NOTHING CONGRESS"

(Mr. COOPER asked and was given permission to address the House for 1 minute.)

Mr. COOPER. Mr. Speaker, we have heard a lot of problems mentioned on the House floor today. We should be aware that this House is doing a very poor job of addressing any of these problems. Why? Because this is one of the laziest Congresses in all of American history.

We are scheduled to meet this year fewer days than any Congress since at least 1948. And that is even before I was

born. So far, we are in the 123rd day of this year, and yet we have only had 26 voting days in this body. That is a shame.

This Congress is simply not doing its job under Republican leadership. They are the ones that set the schedule. Harry Truman called that Congress of 1948 the "Do Nothing Congress" of 1948. How do you do less than nothing? Sadly, the American people are about to find out, thanks to our friends on the other side of the aisle.

COMMENDING STANLY COUNTY NATIVE AND AMERICAN IDOL CONTESTANT KELLIE PICKLER

(Mr. HAYES asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. HAYES. Mr. Speaker, today I want to congratulate Albemarle, North Carolina, native and "American Idol" contestant Kellie Pickler for pursuing her dream and using her God-given talent to sing. Kellie is returning home, but she consistently received some of the highest vote totals of any of the other contestants. And it is easy to understand why. Kellie's charm and talent clearly defined her success each week as Americans tuned in to the most popular show on television. Kellie will be returning home to Stanly County and North Carolina a true idol to many for her performances, her extraordinary singing voice and the grace she personified in front of millions as she represented her community, family and friends.

Kellie, we wish you the best. I know that great opportunities lie ahead for you.

MEDICARE DRUG PROGRAM

(Mr. LIPINSKI asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. LIPINSKI. Mr. Speaker, in less than 12 days, seniors face a critical deadline. By May 15, they must sign up for a Medicare prescription drug plan. After this date, they will pay a permanent penalty of 1 percent for every month that they wait to join, a penalty they will pay on top of their premium for the rest of their lives.

I have held more than three dozen seminars across my district to help seniors navigate through the overly complex program, and they keep calling asking for more help. They are understandably confused by the more than 60 different choices that they have. The least we can do is give seniors more time to understand their options so that they can make their best choice.

To do this, Congress must pass the Medicare Informed Choice Act which would delay the late enrollment penalty, prevent beneficiaries from losing their employer-based coverage and allow seniors to switch plans if they

make a mistake. More than 70 percent of seniors are asking for more time. It is long overdue for Congress to listen and make sure that seniors have a prescription drug plan that works for them.

CAPTURE OF MICHAEL BENSON

(Mr. KENNEDY of Minnesota asked and was given permission to address the House for 1 minute.)

Mr. KENNEDY of Minnesota. Mr. Speaker, I rise today, as a Member of Congress and a parent, to thank the many law enforcement officers whose hard work resulted in yesterday's capture of escaped child sexual predator Michael Benson.

I would also commend John Walsh and the viewers of "America's Most Wanted," who helped make Benson the 888th criminal apprehended after being featured on the show.

However, I stand here today deeply frustrated that obstructionists in the other body are using procedural gimmicks to block passage of the Child Safety Act, which the House first passed overwhelmingly more than 8 months ago.

Mr. Speaker, this act will help our children keep safe from predators like Michael Benson, and I urge the other body to quit obstructing and pass this vital bill.

RECOGNITION OF NAVAL AIR STATION WHIDBEY ISLAND

(Mr. LARSEN of Washington asked and was given permission to address the House for 1 minute.)

Mr. LARSEN of Washington. Mr. Speaker, I rise today to thank the Department of Defense for its recognition of Naval Air Station Whidbey Island as a model military installation for the country. Base Commander Captain Syd Abernethy and the Island County community will accept the Annual Commander-in-Chiefs Award for Installation Excellence on Friday.

This award recognizes the hard work and exceptional efforts of the people who operate NAS Whidbey, and I praise that team effort, from the men and women on the ground to those in the sky. They make this installation run.

The community and the residents of Oak Harbor and Island County play an integral role in protecting and promoting NAS Whidbey. It is their support year after year that makes NAS Whidbey great.

NAS Whidbey has emerged as a national center of electronic warfare and anti-submarine warfare operations. These missions will be pivotal to creating the type of military the Department of Defense wants to build in the upcoming years. NAS Whidbey will likely have to accommodate tremendous growth in the future, and this award shows that the team and infrastructure are in place to do the job.
